THE SKIN BUSINESS

SYNOPSIS

THE SKIN BUSINESS is a movie about how the Internet has cut into the profits of what was once thought to be a recession-proof business, and how directors and producers are gambling on a newly-popular genre of porn; the porn parody. This film shows how the industry takes on some of entertainment's most popular franchises and makes them xxx; from Batman, to the Addams Family, to the Brady Bunch and even animated features like American Dad, there is nothing in mainstream that can't be made fun of in porn. If you love porn, you will love this movie. If you are a virgin to the world of porn, consider this Porn 101.
